SUMMARY

Full-stack developer with 4+ years of experience building production web applications with React, Next.js, Node.js, Express, and MongoDB. Experienced in delivering complete features across user interfaces, APIs, authentication, payments, databases, and deployment.

SKILLS

Frontend	React, Next.js, TypeScript, JavaScript, Tailwind CSS, Redux
Backend	Node.js, Express, REST APIs, JWT, Stripe, Razorpay
Data & Tools	MongoDB, MySQL, Redis, AWS, Git

EXPERIENCE

Full-stack Developer HR Geckos Product Engineering	Oct 2024 - Present
- Built an employee handbook platform from database design to responsive UI, including PDF generation and employee acknowledgement tracking. - Created multi-step policy review and publishing workflows with role-based access control. - Integrated Stripe subscriptions, checkout, invoices, webhooks, payment history, and refunds. - Strengthened validation and authorization across payment, policy, invoice, and employee workflows.	
Full-stack Developer Tata Consultancy Services (TCS) Enterprise Solutions	Dec 2021 - Jun 2024
- Built reusable React components and business dashboards connected to REST APIs. - Managed application state with Redux and React Hooks across data-heavy dashboards. - Improved page speed through lazy loading, code splitting, and more efficient API usage. - Worked with cross-functional teams to debug issues and deliver stable production features.	

PROJECTS

VKart - Full-stack E-commerce Platform Live site React, Node.js, Express, MongoDB, Redis, Razorpay	Personal project
- Built a responsive shopping experience with product search, filters, wishlist, cart, checkout, and order tracking. - Implemented JWT and Google login, optional two-step verification, protected routes, and user profiles. - Created admin tools for products, stock, orders, coupons, sales, reviews, and settings, and integrated Razorpay and wallet payments with backend verification. - Added AI-powered product search using semantic search and retrieval-augmented generation (RAG).	
Image Magic Pro - Browser Image Tool Live site Next.js, Node.js, Sharp	Personal project
Built a browser tool for batch image conversion and light editing, with server-side processing and multi-file downloads.	

EDUCATION

B.Tech in Electronics and Communication Engineering Lakireddy Bali Reddy College of Engineering CGPA: 7.7/10	2020
